PERSONAL FITNESS MENTORSHIP

A stronger body.
A stronger routine.

By Karim Al Arab

Founder & Fitness Mentor

Build muscle, improve body composition and grow stronger with a plan shaped around your goals, schedule and starting point.

THE APPROACH

My approach draws on my own training, transformation and ongoing study. I work closely with you to build a routine you understand, follow and progressively improve.

YOUR STARTING POINT

Beginners and intermediate lifters get clear structure, technique guidance and accountability. Advanced lifters can add focused conditioning and deeper performance tracking.

Clear structure. Real involvement.

The structure to progress, with someone involved in how you apply it.

01 **Training built around you**

Your split, exercises, sets, reps, weights, rest and progression, tailored to your goals, schedule and equipment.

02 **Your eight-page progress tracker**

Your body weight, workouts, quick stats and strength estimates, plus your split and longer-term plan in one place.

03 **Regular contact and accountability**

Private WhatsApp support, a weekly check-in and up to three technique clips each week, with written or voice feedback.

04 **A plan that keeps adapting**

Monthly program review and a scheduled call. Earlier adjustments as performance, recovery or schedules change.

05 **Recovery and supplement education**

Practical sleep and recovery habits, plus optional supplement education and specialist input where needed.

IN PERSON, WHEN IT FITS

Gym sessions and runs by arrangement. Availability and entry fees apply.

Choose your direction.

Support matched to your starting point.

FOUNDATION

Beginner & intermediate lifters

$100 / month

Personal training, progress tracking and weekly support.

PERFORMANCE

Advanced lifters

$120 / month

Foundation plus VO2 max conditioning and resting heart-rate reviews.

OPTIONAL EXTRAS

Home gym coaching: $40 for 90 minutes, by availability. Dietitian consultations, meals, supplements and gym entry are billed separately and agreed first.

Wearable optional; pace, effort and recovery also guide cardio. Device-based VO2 max readings are estimates.

HOW WE START

1. **Screening.** Share your goals, schedule and training history.
2. **Introductory call.** Discuss priorities, fit and health readiness.
3. **Starting plan.** Baseline assessment, then your program and tracker.

Reply **START** to request your screening and arrange our introductory call.

I bring the structure. You bring the work.
Follow the plan, log your sessions and communicate honestly. Stay consistent through busy days; report pain or unusual fatigue.
